SUPERYACHT CYBERSECURITY

信Anchorpoint

CyReady

Be cybersecurity ready, with the basics to protect your operations.

WHY CYREADY

Cyber attacks cost owners money and disrupt operations. Regulation is expected to demand more evidence and to cover more yachts, regardless of size or whether they are private or commercial.

No cyber expertise?

An extension of your crew, dedicated to cybersecurity, working for the programme.

Can't find the time?

We do the quarterly check-in work for you, so it does not add to your workload.

Not sure where to start?

A full annual assessment shows where you stand and what to fix first, then we track progress.

> **What CyReady is not.** It is not a vCySO (virtual Cybersecurity Officer), who takes ownership and responsibility for your whole programme. CyReady covers the basics. **If you need more, the next step is vCySO. Not sure which you need? Speak to us.**

WHAT IS INCLUDED

01 **Annual assessment** — ANNUAL
A full site assessment, built around NIST with IMO and BIMCO guidance in view.

02 **Quarterly check-in** — QUARTERLY
A quarterly call and written summary, with basic checks and the next priority: demonstrable progress that protects the owner and programme.

03 **CyIntel briefings** — FORTNIGHTLY
Fortnightly superyacht threat intelligence, easy to read for HODs and technical officers, with clear steps on how to act on each notice.

04 **Support on hand** — ON REQUEST
Triage and advice from a yachting cybersecurity specialist when something looks wrong: what happened, how serious, what next.

05 **Simple cyber document** — AS NEEDED
A very basic one-page document of what your cyber is and is not, and what to do in an incident, updated as and when. Anything more is yours to develop, or a project at additional cost.

ADD-ON **CyTraining: deal with your biggest risk, crew.**

Human risk is a leading cause of superyacht hacks. Monthly 5-minute modules, no portal.

From £300 a month ex VAT, by gross tonnage. 12-month term, paid quarterly, or annually with one month free.

Superyacht cybersecurity is all we do. Independent advice, matched to your yacht.
